

# Video Interaction

V. Ellen Burdge ~ Mlf America - March 2020

# AGENDA

- ❖ How are videos and video sessions being used?
- ❖ What are some tools for presenting video lessons or for students to create original videos?
- ❖ Explore resources
- ❖ Ask and answer questions

# How are videos and video sessions being used?

- ❖ **Begin the Day** (10 minute video)
- ❖ **Small Group Video Sessions** (regular times during the week; e.g. 30 minutes every Monday and Friday afternoon)
- ❖ **Individual Video Sessions** (check in with each student each week) *\*Make sure to invite another adult.*
- ❖ **On-demand Video Sessions** (students can sign up; office hours)
- ❖ **Screencast of Instructions** (teach how to use a learning tool, how to complete an assignment or submit an assignment, etc.)
- ❖ **Screencast of an Explanation** (could be explicit teaching, explaining a rubric for an upcoming assignment, etc.)
- ❖ **Student-created Video** (used to demonstrate learning, show work and explain thinking)

What are some tools for presenting video lessons or for students to create original videos?

## 7 Classroom Screencasting Activities

- ❖ Instructional Videos
- ❖ Narrating Slideshows
- ❖ Explaining Student Understanding
- ❖ Dubbing a Video
- ❖ Giving a Speech or Performance
- ❖ Practicing Fluency
- ❖ Providing Feedback

## Purpose and Benefits of Flipgrid

- ❖ Social learning
- ❖ Share ideas, stories, work
- ❖ Promotes confidence and creativity
- ❖ Builds empathy
- ❖ Include Families

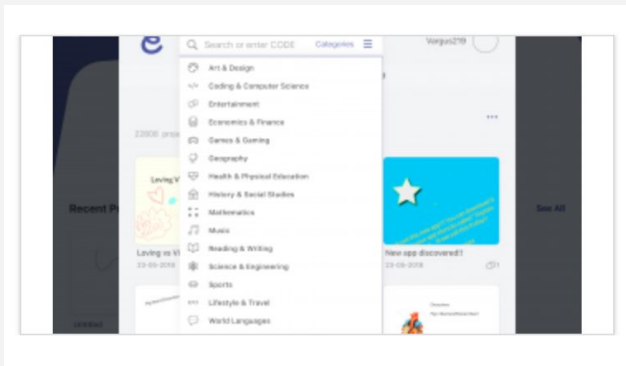

## Features of Loom

- ❖ Fast recording
- ❖ Instant sharing
- ❖ Easy editing
- ❖ Rich reactions

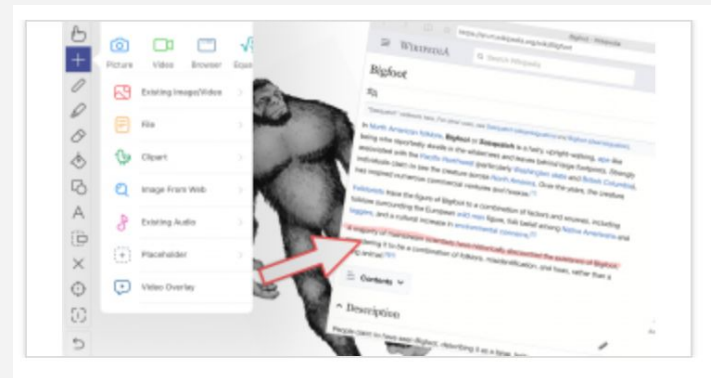

### Fun Fact

Did you know you remember 95% of a message when it's watched vs. only 10% of what you read? Try it.

Explain  
Everything

## Why students and teachers choose Adobe Spark

### Inspiration for everyone

We make a lot of templates. Use them as a starting point for an assignment or as personal inspiration.

### Fast, fun creation

Spark is easy peasy. Pick a design theme that speaks to you, drop in photos here and there, add your text, and you're done!

### Easy to follow lessons

You deserve more sleep. Meet curricular objectives with our step-by-step lessons and add creativity in the classroom so you're not up at night making lesson plans.

### Sharing with confidence

No need to look over your shoulder. Spark enables students and teachers to safely share projects with each other without worries.

## Why Students & Teachers Love WeVideo

- ❖ Create with ease
- ❖ Royalty free media library
- ❖ Record your screen & webcam
- ❖ Easily create podcasts
- ❖ Use a green screen
- ❖ Collaboration

# Resources / Q&A

<https://padlet.com/mlfamerica/idg8m7t54r5x>

The Padlet board, titled "Video Interaction" and created by mlfamerica, features a grid of resource cards:

- Adobe Spark:** Includes a video "How to Use Adobe Spark to Create Videos" by Richard Byrne and a PDF document "Adobe%20Spark%20Edu%20Guide" from spark.adobe.com.
- Explain Everything:** Features a video "Walk through guide to using Explain Ever..." by James Kieft and a text-based resource "What is Explain Everything?" which describes it as a whiteboarding platform.
- Screencastify:** Includes a video "Sample Screencastify Recording" by Rachael Edwards and a text-based resource "Check Out the Latest Version of Screencastify".
- Flipgrid:** Features a video "FlipGrid Tutorial by 2Minute Teacher Tech" by YouTube.
- WeVideo:** Includes a video "Beginner Video Editing with WeVideo" by Jess Creatives.
- Loom:** Features a text-based resource "Guide to Using Loom for Education" which provides steps for installing and using the Loom recorder.
- Flipgrid Helpdesk:** A card with a Flipgrid logo.
